ABOUT ME

Computer Science Engineering student with a strong interest in full-stack web development and software development. Hands-on experience building responsive web applications using React and modern web technologies. Passionate about developing practical solutions, learning new technologies, and strengthening problem-solving skills.

EDUCATION

B.Tech in CSE (AKTU)	2025 - 2029
ABES Engineering College (3 rd Semester)	CGPA 8.13
Class 12th (CBSE)	2020-2022
Tulsidas Memorial Catalyst Hybrid School	74.75%
Class 10th (CBSE)	2022-2024
The Pillars Public School	84.74%

INTERNSHIPS

- Frontend intern at CodeAlpha**
Developed responsive, user-friendly interfaces, implementing modern frontend technologies to enhance usability, performance, and overall user experience.

PROJECTS

- QuickOPD (Google Solution Challenge)**
AI-powered voice-native OPD receptionist enabling symptom reporting in regional dialects with speech-to-text, translation, intelligent triage parsing and patient routing.
- E-Commerce Website**
Amazon & Domino's-inspired responsive applications using reusable React components and interactive product sections.
- Attendance Tracker**
Developed a React-based attendance management system for tracking subject-wise attendance, calculating percentages, and determining permissible bunks based on a target attendance level.

HACKATHONS & CERTIFICATES

- Google Solution Challenge - Certificate
- Oblivion UX/UI Imperium (NSUT) - Certificate
- Build With Bharat - Certificate
